

NREL Energy Analysis Forum

Energy Analysis Office
Understanding Energy Issues

“Understanding State and Regional Electricity Markets: Analytic Issues for Efficiency and Renewable Energy”

Hosted by the National Renewable Energy Laboratory (NREL)
and organized by NREL's Energy Analysis Office (EAO)

November 9-10, 2004

Sheraton Denver West
360 Union Boulevard
Lakewood, Colorado

For reservations, call 1-800-325-3535 or 303-987-2000
by October 25 and ask for the Energy Analysis Forum rate.

Forum synopsis

The National Renewable Energy Laboratory's (NREL) Energy Analysis Forum focuses on analytic issues and their importance to the nation's energy efficiency and renewable energy programs.

This forum is the fourth in a series of energy analysis forums sponsored by NREL. These events are designed to bring together energy analysts with other stakeholders to address analysis related to specific energy technology, policy, or market issues.

On the agenda

During this two-day event, participants will discuss critical issues relating to the development of markets for renewable energy and energy efficiency technologies. The forum will focus on state and regional electricity markets, with an emphasis on policy issues, financing, and market opportunities and barriers.

The forum sessions are a combination of presentations and group discussions, providing background on these analytic issues. On the second day, smaller “working groups” will discuss available tools and studies, and identify analytic needs. The final session includes a full group discussion of a framework for prioritizing analytic needs, as well as recommendations for next steps.

NREL also will be hosting a reception at its Visitors Center on the evening of November 9, which will include a participant poster session – access the Energy Analysis Web site at www.nrel.gov/analysis for more details on these events.

Registration:

Registration for the Energy Analysis Forum is free. Conference participants are responsible for their own transportation and lodging costs. To register, complete and return the enclosed registration form, access it at www.nrel.gov/analysis, or e-mail your information to david_glickson@nrel.gov.

Questions regarding registration, please contact:

David Glickson
